

# 5 Before Starting Your Next EIFS, Stucco or Cement Board Stucco Project

## Facts Every Contractor Should Know About Sto

### Increase your profit potential with StoMachine Technology.

Using StoMachine Technology advanced application systems can cut jobsite labor costs by 25% or more. Your projects are completed faster, allowing you to move on to the next job faster.

### The best user-friendly tools to make your work easier:

- Standard or custom color finish samples shipped in two days
- Expansive Division Binders
- Over 300 illustrative detail drawings
- Dew Point analysis
- Electronic Submittal System
- Top rated website for easy-access to Tech Support

### More face-to-face time with three times as many company reps as the nearest competitor.

We offer superior support with our experienced staff, phone help lines, online help desk, and online FAQs. For less downtime, more than 80 percent of our technical inquiries are answered the same day. When you need an answer now, you don't have to wait.

### Get the protection of the best standard single-source EIFS warranty in the industry.

We have a single-source warranty for thermal and moisture protection and 95 percent of complaints are resolved in three days or less. Sto is the only EIFS and Stucco manufacturer with its own waterproofing/air barrier system approved and listed with ICC as a stand alone system or for use with any cladding.

### Be confident with Sto – Sto is the world's largest-selling EIFS manufacturer with company facilities in over 40 different countries.

We offer more EIFS and building science testing than any EIFS or Stucco manufacturer. All our manufacturing facilities are ISO 9001-2000 certified to ensure consistency and quality. Sto has designed wall cladding systems for over 60 years, including the first ever EIFS.

Contact your local Sto Sales Representative for more information.

### ATTENTION

Sto products are intended for use by qualified professional contractors, not consumers, as a component of a larger construction assembly as specified by a qualified design professional, general contractor or builder. They should be installed in accordance with those specifications and Sto's instructions. Sto Corp. disclaims all, and assumes no, liability for on-site inspections, for its products applied improperly, or by unqualified persons or entities, or as part of an improperly designed or constructed building, for the nonperformance of adjacent building components or assemblies, or for other construction activities beyond Sto's control. Improper use of Sto products or use as part of an improperly designed or constructed larger assembly or building may result in serious damage to this product, and to the structure of the building or its components. **STO CORP. DISCLAIMS ALL WARRANTIES EXPRESSED OR IMPLIED EXCEPT FOR EXPLICIT LIMITED WRITTEN WARRANTIES ISSUED TO AND ACCEPTED BY BUILDING OWNERS IN ACCORDANCE WITH STO'S WARRANTY PROGRAMS WHICH ARE SUBJECT TO CHANGE FROM TIME TO TIME.** For the fullest, most current information on proper application, clean-up, mixing and other specifications and warranties, cautions and disclaimers, please refer to the Sto Corp. website, [www.stocorp.com](http://www.stocorp.com).
